

Brake & Folding Tools

For precision fabrication

Heavy-duty stainless steel adjustable hand brake with brass adjustment screws and sight guide. Makes quick and accurate bends in aluminum, steel, copper, and galvanized. Convenient 6-inch pocket size is great for forming the "bird box" at the end of soffits and is also used to bend siding trim, fascia, etc.

Folding tools made of tempered 16 gauge steel are strong and double-sided. Makes 1" (25mm) and 3/8" (10mm) wide folds commonly used in HVAC to form drive cleat tabs, wide folds on plenums, trunk line caps, etc. Sight gauge holes ensure accurate depth alignment.

FASTER!

Choose Preset or Adjustable

Use adjustable brake or preset folding tool depths.

EASIER!

Sight Gauges

Featured on all models for proper alignment.

SAFER!

Heavy Duty Construction

Stainless steel brake and folding tools of 16 gauge steel.

ADJUSTABLE HAND BREAK:

Strong
