

## DOWNSPOUT NOZZLE

Cast Nickel RD940

### Features

- No Hub (Standard), IPS Threaded, or Push-On Connection to Match Drainage Conditions
- Designed with Anchor Flange & Countersunk Mounting Holes for Secure Installation
- Cast Nickel Bronze Provides Long Life & Durability

### Options/Accessories

- Stainless Steel Bird Screen
- IPS threaded & Push-on are Available

#### Downspout Nozzle (No Hub)

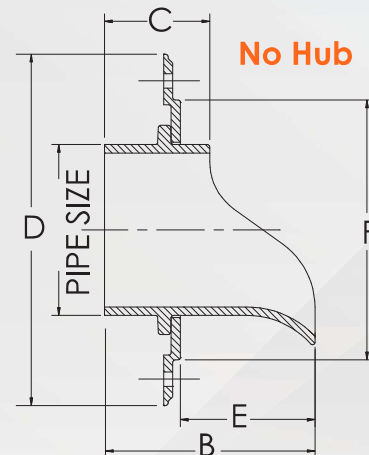

Size	Part Number
2" Downspout Nozzle	C1-321091
3" Downspout Nozzle	C1-32110
4" Downspout Nozzle	C1-32111
5" Downspout Nozzle	C1-321111
6" Downspout Nozzle	C1-32112
8" Downspout Nozzle	C1-321143
10" Downspout Nozzle	C1-321144
12" Downspout Nozzle	C1-321145

#### SS Bird Screen

Size	Part Number
3" SS Bird Screen	C1-321146
4" SS Bird Screen	C1-3211464

The RD-940 downspout nozzle is a heavy-duty, high performance drainage solution designed for the termination of roof overflow systems. Constructed from cast nickel bronze, this nozzle provides superior durability and long-lasting reliability in even the harshest environmental conditions. Ideal for commercial applications, the RD-940 safely directs water away from the building's exterior—minimizing wall staining and structural wear caused by uncontrolled runoff.

#### SS Bird Screen

#### No Hub Connection

Model	Pipe Size	B	C	D	E	F
RD-942-NH	2"(51)	5 1/4"(133)	2 1/4"(57)	6 3/4"(171)	3 1/2"(89)	4 3/4"(121)
RD-943-NH	3"(76)	5 1/4"(133)	2 1/2"(63)	8 1/4"(210)	3 1/2"(89)	6 3/8"(162)
RD-944-NH	4"(102)	5 1/4"(133)	2 3/4"(70)	9 1/8"(232)	3 1/2"(89)	7"(178)
RD-945-NH	5"(127)	5 1/4"(133)	3"(76)	9 1/4"(235)	3 3/8"(86)	7 1/4"(184)
RD-946-NH	6"(152)	5 1/4"(133)	2 3/4"(70)	11 3/8"(289)	3 1/2"(89)	9"(229)
RD-948-NH	8"(203)	6"(152)	3"(76)	12 1/2"(318)	4"(102)	11"(279)
RD-9410-NH	10"(250)	5 3/4"(146)	3"(76)	15 1/4"(387)	3 3/4"(95)	13 1/16"(332)
RD-9412-NH	12"(305)	6"(152)	3 1/4"(83)	17 1/4"(438)	3 3/4"(95)	15 1/16"(383)

**Note:** The color of nickel bronze parts can vary slightly. Photographs of the downspouts appear more silver in color, while more of a gold tint is apparent when you look at the physical part. The nickel bronze will also darken with time and exposure to weather.
