

SOLAR PANEL CRADLE

Instruction Manual

SB

[CH-200, EH-250, VH-300]

Parts list:

1. Solar Panel Cradle
2. Hardware bag

Instructions

1. Remove solar panel cradle and hardware bag from the box
2. Lift the solar panel cradle into place on the carriage [make sure the straps are facing the track and the pitch is facing you]. You will know this is correct when the holes on the solar panel cradle line up with the holes on the carriage.
3. Secure each hole using the nut and bolt from the provided solar panel cradle hardware bag. Tighten the hardware using a wrench.
