PALLET CARRIER

Tilt Back Pallet & Materials Carrier Cart

Part ID: 73058

With its adjustable tilt feature, Tie Down's Tilt Back Pallet Carrier is a versatile and efficient solution for transporting a range of materials, from insulation to rubber rolls. Its large tires enable smooth movement on all types of decks. The rear wheels are adjustable to change the tilt, providing enhanced control during transportation. This carrier is equally adept on job sites, effortlessly moving portable restrooms, water storage tanks, toolboxes, and more. Effortless maneuvering is ensured by the multi-piece formed handle and multi-axis casters. The pinned caster lock prevents unwanted rotation and ensures stability on sloped surfaces. The flat-free tires deliver reliable performance without the need for maintenance, and the all-steel frame guarantees long-lasting durability.
