

SturdiMount®

For the beauty you want and the water protection you need.

SturdiMount fiber cement blocks are manufactured using cellular PVC. Their engineered water management system maintains integrity with its innovative pre-flashed, pre-assembled design. The 12 color-matched colors provide a clean finished look you can't get anywhere else. Our Trim White can be left white or painted.

- Pre-flashed and pre-assembled for protection against water damage.
- Provides job site uniformity, no matter which crew sides the house.
- Saves time and labor, SturdiMount installs in seconds.
- Provides a clean and more finished look.
- For use on fiber cement, engineered wood, cedar and composite siding.
- Will not chalk or fade.
- The mounting surface is manufactured of cellular PVC.

For onsite customization blanks are available in **Universal, Oversized and Receptacle Profiles.**

(Flange is pre-cut)
