Inhalation: If inhaled, immediately remove the affected person to fresh air. If breathing is

difficult, give oxygen. If not breathing, give artificial respiration. If symptoms

develop and persist, get medical attention.

**Skin contact:** Fresh foam : Wipe off affected skin area immediately with a soft cloth and then

remove residues with vegetable oil; apply skin care product. Cured foam can be removed only mechanically. Immediately wash skin thoroughly with soap

and water. Remove contaminated clothes.

Eye contact: Flush eyes with plenty of water for at least 5 minutes. If irritation persists seek

medical attention.

**Ingestion:** Do not induce vomiting, seek medical advice immediately.

Symptoms: See Section 11.

#### 5. FIRE FIGHTING MEASURES

**Extinguishing media:** Foam, dry chemical or carbon dioxide. Do not use water.

Special firefighting procedures: Wear a self-contained breathing apparatus with a full face piece operated in

pressure-demand or other positive pressure mode. Wear protective

equipment.

Unusual fire or explosion hazards: Cool aerosol containers with jet of water. Containers may explode. Contents

under pressure.

Hazardous combustion products:

Isocyanate vapors In the event of a fire, carbon monoxide (CO), carbon

dioxide (CO2) and nitrogen oxides (NOx) can be released.

### 6. ACCIDENTAL RELEASE MEASURES

Use personal protection recommended in Section 8, isolate the hazard area and deny entry to unnecessary and unprotected personnel.

Environmental precautions: Remove all sources of ignition. Ventilate area. Wear appropriate personal

protective equipment.

Clean-up methods: Allow to solidify. Scrape up spilled material and place in a closed container for

disposal.

#### 7. HANDLING AND STORAGE

Handling: Keep away from heat, spark and flame. Do not puncture or incinerate

pressurized containers. Ensure adequate ventilation, especially in confined areas. Prevent contact with eyes, skin and clothing. Do not breathe vapor and mist. Wash thoroughly after handling. Keep out of the reach of children. When using do not eat, drink or smoke. Wear suitable protective clothing, gloves and

eye/face protection. Refer to Section 8.

Storage: Store between 50°F and 80°F. (10° and 27°C) Store away from heat, sparks,

flames, or other sources of ignition. Do not store above 49  $^{\circ}\text{C}$  (120  $^{\circ}\text{F}).$  Do not

cut or weld container.

Ensure adequate ventilation. Store in sealed original container. Store in a dry

place.

For information on product shelf life, please review labels on container or check the Technical Data Sheet.

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Employers should complete an assessment of all workplaces to determine the need for, and selection of, proper exposure controls and protective equipment for each task performed.

### 11. TOXICOLOGICAL INFORMATION

Relevant routes of exposure: Inhalation, Ingestion, Skin

#### **Potential Health Effects/Symptoms**

Inhalation: Inhalation of mist or spray may be harmful. As a result of previous repeated overexposures or a

single large dose, certain individuals will develop isocyanate sensitization (chemical asthma) which will cause them to react to a later exposure to isocyanate at levels well below the TLV. Chronic overexposure to isocyanates has been reported to cause lung damage. These symptoms, which can include chest tightness, wheezing, cough, shortness of breath or asthma attack, could be immediate or delayed (up to several hours after exposure). Persons suffering from allergic reactions to isocyanates should avoid contact with the product. May cause

dizziness, incoordination, headache, nausea, and vomiting.

Skin contact: Persons suffering from allergic reactions to isocyanates should avoid contact with the product.

Prolonged or repeated skin contact may cause skin irritation or allergic skin sensitization

reaction. This product may discolor the skin. Cured material is difficult to remove.

**Eye contact:** Contact with eyes can cause eye irritation.

**Ingestion:** Can cause irritation of mucous membranes. Nausea.
