

Specifications

SKU	Description of the Drill Bit	Features of the Drill Bit	Type of Drill Bit
MW-DE18	Black oxide coated. Utilize both ends. 118 point starts drilling immediately.	Diameter: 1/8" (3.18mm) Length: 2" (50.8mm)	Double Ender
MW-DE30	Black oxide coated. Utilize both ends. 118 point starts drilling immediately.	Diameter: #30-0.1285" (3.26mm) Length: 2" (50.8mm)	Double Ender
MW-DE18	Black oxide coated. Utilize both ends. 118 point starts drilling immediately.	Diameter: 1/8" (3.18mm) Length: 2" (50.8mm)	Double Ender
MW-FJ18	Black oxide coated. Heavy-duty M1 through-hardened tool steel.	Diameter: 1/8" (3.18mm) Length: 2 3/4" (69.85mm)	Jobber
MW-FJ14	Black oxide coated. Utilize both ends. Heavy-duty M1 through-hardened tool steel.	Diameter: 1/4" (6.35mm) Length: 4" (101.6mm)	Jobber
MW-FJ516	Black oxide coated. Utilize both ends. Heavy-duty M1 through-hardened tool steel.	Diameter: 5/16" (7.94mm) Length: 4 1/2" (114.3mm)	Jobber
MW-FP516	Tungsten carbide tip. Heavy-Duty M1 through-handed tool steel.	Diameter: 5/16" (7.94mm) Length: 4" (101.6mm)	Masonry
