Cleaning Instructions

- ★ Allow the boots to dry naturally at room temperature if they are muddy or dirty.
- ★ Remove dust and surface dirt with a soft-bristled brush (toothbrush) or a brush specifically designed for suede and nubuck.
- ★ For light stains, use a white eraser (the kind used on school supplies) or one specifically designed for suede and nubuck.
- ★ If a deep clean is required, you can purchase a special suede and nubuck cleaner and follow the manufacturer's instructions.
- ★ After cleaning, you can apply a special suede or nubuck protective repellent and follow the manufacturer's instructions.

THE LEATHER IS WATER RESISTANT - DO NOT USE:

- ★ **PUMPKIN SOAP, CREAMS, WAXES, OR OILS NOT INDICATED FOR SUEDE OR NUBUCK**
- ★ **ALCOHOL, ACETONE, OR SOLVENTS**
- ★ **DETERGENTS OR ABRASIVE PRODUCTS**

SPECIAL CARE

The boots are made with water-repellant leather. If they get wet, remove excess water with a dry cloth and then air dry (do not use dryers, direct sunlight, or any direct heat sources). Store in a cool, dry, and well-ventilated place
