

# RoofWalker®

**SAFETY NOTICE**

## **IMPORTANT SAFETY REMINDER FROM MBS OUTFITTERS**

---

Remember, RoofWalker® boots are intended for use only when you are on a roof or ascending or descending one. They are not designed for every day wear. Using them incorrectly or not as intended will result in the boot pads failing prematurely. Additionally, while MBS Outfitters provides a 30-day warranty against manufacturing defects, the boot pads will naturally experience normal wear after multiple uses and are intended to be a replaceable part of the boot. Refer to the product information that came with your boots for details on when to replace the pads.

Always inspect the boot and pad prior to each use to ensure that the boot pad is properly adhered to the boot. If for any reason it is not, do not use the boot until the pad is replaced.

If you have any questions regarding your RoofWalker® boots, please contact MBS Outfitters at 419-481-8184.

**If Delamination occurs within the first 30 days of your purchase date, discontinue use Immediately and contact MBS Outfitters for pad replacement**
